

Men! Look Here!

DO YOU SUFFER FROM Lost Strength

Nervous Debility, Varicocele,
Early Decay and Waste of
Power? They Are Quickly
and Forever Cured by the
Grand Product of Nature,
DR. McLAUGHLIN'S Electric Belt, With

Free Electric Suspensory for Weak Men

This Electric Suspensory carries the current direct to the weak parts and cures all weakness of men, varicocele, etc. It develops and expands all weak organs and checks unnatural drains. No case of Failing Vigor, Varicocele or Debility can resist the powerful Electric Suspensory. It never fails to cure. It is free with Belts for weak men.

No man should be weak; no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth, when there is at hand a certain cure for his weakness, a check to his waste of power.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer, are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt, with Special Electric Suspensory (free), will restore your power. It will check all unnatural drains and give back the old vigor of youth.

Mr. W. L. Lugo, Red Bluff, Cal., says: Your belt gives perfect satisfaction in every way. After having worn the appliance only a month I am almost cured.

This drug upon your power causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of vital power and affects every organ of the body. Most of the ailments from which men suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring.

What ails you? Write and tell me, and no matter where you are, I think I can give you the address of some one in your town that I have cured. I've cured thousands, and every man of them is a walking advertisement for my Belt.

Every man who ever used it recommends it, because it is honest. It does great work, and those whom I have cured are the more grateful because the cure cost so little.

Every man who uses my Belt gets the advice and counsel of a physician free. I give you all that any medical man can give you, and a lot that he can't.

Try my Belt. Write me today for my beautifully illustrated book with cuts showing how my Belt is applied, and lots of good reading for men who want to be "The Noblest Work of God." A MAN. Inclose this ad, and I will send this book, sealed, free.

DR. M. C. McLAUGHLIN,

129 South Spring Street,

Los Angeles.

A SEVERE WOOD FAMINE.

The wood famine has become so severe that when a young man goes to see his best girl he takes an armful of wood with him, and when it is burned he must either leave or by staying take the chance of freezing.—Paris (Mo.) Mercury.

MEN'S DISEASES

DR. O. C. JOSLEN,
The Leading Specialist.

Consultation by Mail

Though it is better to call upon me in person when possible, those residing out of the city and others who cannot conveniently come to my office, may write me in regard to their cases, and I will reply with such helpful advice as I am able to render.

My Treatment

So complete is my knowledge of Men's Diseases that I am able to diagnose and treat most cases successfully at a distance, but in no instance will I undertake a case unless I am positive that results will be satisfactory.

My Practice is the Largest because I invariably fulfill my promises.

WEAKNESS—My method of treatment isn't employed by any other doctor, nor are my cures duplicated. I do not fill your system with stimulating drugs, but I treat locally, and in every instance I remove the cause of the functional disorder.

VARICOCELE—My treatment is absolutely painless and cures completely in one week. Investigate my method. It is the only thoroughly scientific treatment for this disease being employed.

CONTRACTED DISEASES—Be sure your cure is thorough or there's danger of a chronic stage ahead. My patients have no relapses and I cure in less time than the ordinary forms of treatment require.

A Last Word

I also cure Specific Blood Poison, Stricture and all reflex ailments. My colored chart of the male anatomy free at office or by mail. Write for it—under plain wrapper.

DR. O. C. JOSLEN,
Cor. Third and Main Streets,
Los Angeles, Cal.

Mines and Minerals of Arizona

WESTERN ARIZONA

Rich Finds Made in the Harqua Hala Mountains.

A rich gold strike has been made in the Harqua Hala mountains, on the eastern side of the range, opposite the point where Cullin's Well is shown on the map, says Leland Canby in a letter to the Los Angeles Mining Review. It was made by Pat Devine, of "Sunset," a nearby camp, about three weeks ago, and in a ten-foot hole which he sunk on a three-foot vein, the showing is as good as the famous "Harqua Hala" mine when first discovered. I saw some of the ore at the Wells about two weeks ago and made several panings, which I estimated would go about \$50 per ton gold. The rock also shows high values in copper, but no assays had been made when I saw it, so could not form an estimate of the total value. Devine says he has prospected the croppings for 3,000 feet, and can horn out gold wherever he has put his pick in. The strike has caused considerable excitement in that vicinity and prospectors are pulling into the neighborhood every day.

To the west of Cullin's Wells, and directly opposite in the Harcaruar range of mountains, another strike has been made, which is a little bit out of the ordinary for Arizona. While at the Wells, Isaac Noel, the station keeper, showed me a tin box full of rough jewels, which from their color and general appearance I took to be very fair looking sapphires. He told me that he had found them in some big boulders which were full of white crystals. In breaking these up light and dark blue crystals were found, and also some which are slightly pink in color. Noel says that he expects the gully lying below where the boulders are found is full of these stones, and he will prospect it for fine specimens. Those that he had been sent away for an expert's report.

MINING NOTES.

John Berrie, superintendent of the Hudson mine, received orders today from the Hudson Mining company to erect a whim on that property. A Davis whim and 300 feet of cable has been purchased and just as soon as the whim is in position work will be commenced and the shaft sunk to a greater depth. The property is looking in splendid condition.—Journal-Miner.

James P. Faulk, who has just returned to Globe from the San Carlos strip, has, with P. Oates and two others, given an option on their coal claims, in the lower coal fields, known as the Reed group, to the Saddle Mountain Mining company, who want coke with which to smelt their ores. Mr. Clitenden, general manager for the Saddle Mountain company, says he will commence work on the coal property the beginning of the year.

Information from the Riverside oil fields, under date of last Saturday, is to the effect that the Pinal Paraffine Oil company's well had reached a

depth of 842 feet, and that the indications were very favorable. The company has filed with the recorder of Pinal county an affidavit of labor performed and improvements made on their oil claims, showing a total expenditure last year of \$10,558.61.

The Troy correspondent of the Blade notes the return of John Willington from Shawnee, Okla. The object of his visit was to make arrangements for having the assessment work done on some valuable claims which he owns adjoining the Troy-Manhattan Copper company's property. When the Troy Copper company was organized, Mr. Willington said the following claims to the company, viz.: Copper Glance, Homestead, Climax and Climax Nos. 1, 2, and 3. Mr. Willington has great faith in the mines of this section.

Al Williamson and Jack Allen returned on Sunday from the Williamson copper claims on the Gila river, which they performed the assessment work for 1902, says the Globe Silver Belt. Mr. Allen informs us that the work done on these claims has developed large bodies of high grade sulphide ore, and they are, in fact, the finest copper prospects he has seen anywhere in this section. The claims are situated only ten miles from the surveyed line of the Phoenix and Eastern railroad, and the construction of less than a mile of wagon road would make them easily accessible. The claims are owned by D. R. and Al Williamson.

P. A. Johns, general manager of the Braganza Gold Mining company, brought to Prescott on Monday from the Henrietta the largest gold brick ever seen in Prescott.

Ed. S. Campbell, the mining man, left for Chicago yesterday. Mr. Campbell has resigned his position as manager of the New Year's group at McCabe and will devote his time to the interests of the Knickerbocker Mining company.—Prescott Courier.

A whim will be set up in a few days on the Bunker Hill mine, and considerable work is planned, says the Prescott Courier. At present, this group is showing up well. The work just completed shows a large vein on the different claims, and considerable ore is exposed. Cross-cutting will be done on the main shaft at the 150-foot level to determine the extent and size of the ore body.

H. E. Brooks, of Prescott, went to Ask Fork to meet J. H. Hard and Col. Fred Atkinson, two eastern gentlemen who are interested in a new dry wash, which is the invention of an eastern mining man. After an examination of some placer properties near the Colorado river, the party will look into the placer proposition near Stanton. The plant these gentlemen propose to use in this section will have a capacity of 100 tons per day.—Courier.

A Weak System

When the stomach is weak the whole system becomes weak also, because it is from the stomach we receive strength. Besides weakness, you also suffer from Loss of Appetite, Nausea, Headache, Indigestion, Constipation and Liver Troubles. For these complaints you cannot take a better medicine than Hostetter's Stomach Bitters. It positively cures. Try a bottle and satisfy yourself.

**HOSTETTER'S
Stomach Bitters.**

MICHIGAN CAPITALISTS

Will Open a Wonderful Property in Huachuca Mountains.

Charles Chynoweth, accompanied by C. F. Nichols, spent Saturday in Tombstone en route to the Dragoons, where Mr. Chynoweth is interested with other Michigan capitalists. The new company, says the Prospector, has purchased some very fine copper property near the Black Diamond company and will shortly begin operations on a large scale.

Mr. Chynoweth is also interested in the Huachuca mountains with Captain Mitchell, H. O. Young and C. L. Batesman of Calumet. The company has bought the Baron-Pritchard claims and will develop the Huachuca country on a large scale. The company has contracted for a large hoist and will sink a shaft from 1,000 to 1,500 feet until they strike a body of ore. In speaking of the Huachuca and the country near Bisbee Mr. Chynoweth said: "I am very favorably impressed and think Arizona and especially the southwestern part will be the means of making a large copper producing country. We have to go to considerable depth on the lakes, say four to five thousand feet, before we catch the vein of ore, while in this country the ore so far is practically on top of the ground. Our Huachuca company is composed of the largest copper mining men on the lakes and they will find a mine in the Huachuca if one is to be found. The company is strong financially and we expect to expend considerable money in developing that property."

Mr. Chynoweth has been asked by the directors of the new company to take charge of the Huachuca property and to superintend the development work and may possibly return to Arizona after he has made his report to the company on his return to Michigan.

BEST LINIMENT ON EARTH.

Henry D. Baldwin, Supt. City Water Works, Shullesburg, Wis., writes: "I have tried many kinds of liniment but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and \$1.00 bottle at Elvey & Huelett, the live druggists.

A ROYAL MINER.

Count Mettschikoff, who is interested in the Rapid Transit and other mines in the Bradshaw mountains, left yesterday for the east on business, after several weeks spent in this vicinity. The count is a cousin of the czar of Russia and occupied a prominent official position in that country, but refused to obey a certain order of His Autocracy and was given a leave of absence from the country for a number of years. He came to the United States, and although he can return should he so desire, he likes it so well in this country where every man is a prince, if he chooses to be, that he will remain here permanently.—Journal-Miner.

IF UNWELL.

Try a 50c bottle of Herbine, notice the improvement speedily effected in your appetite, energy, strength and vigor. Watch how it brightens the spirits, gives freedom from indigestion and debility!

Isaac Story, Ava, Mo., writes, Sept. 10th, 1901: "I was in bad health, I had stomach trouble for twelve months, also dumb chills. Dr. J. W. May prescriber Herbine. It cured me in two weeks. I cannot recommend it too highly. It will do all you claim for it." Sold by Elvey & Huelett, the live druggists.

REFLECTIONS OF A BACHELOR.

Fat women show no mercy to thin women, and vice versa. Once there was a woman who could not be flattered, but she wasn't alive any longer.

A girl never gets tired of having a man chase after her who gets tired of it now and then himself. You never find a woman who knows how to make a handsome dolly wasting her time on lecturing before women's rights societies.

The things that a woman eats because they are good for the complexion are as numerous as the things a man does not eat because they don't go well with drinking.—New York Press.

CROUP.

The peculiar cough which indicates croup, is usually well known to the mothers of young children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended. Give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Elvey & Huelett, druggists.

You can buy coal for \$7 a ton at places where there isn't any.—Hartford Post.

SIMPLE COLDS

Cease to be simple, if at all prolonged. The safest way is to put them aside at the very beginning. Ballard's Forebore Syrup stops a cold and removes the cause of colds, 25c, 50c and \$1.00 bottle at Elvey & Huelett, the live druggists.

One of the many curious customs which mark the visits of judges to provincial assizes of England is that observed at Newcastle-on-Tyne.

The mayor always makes the following speech to the judges on circuit: "My lords, we have to congratulate you upon having completed your labors in this ancient town, and have also to inform you that you travel hence to Carlisle, through border country, much and often infested by Scots. We therefore present each of your lordships with a piece of money to buy therewith a dagger to defend yourselves."

Then the mayor produces two ancient coins, a Jacobus and a carolus. The former he presents to the senior and the latter to the junior judge. Apparently it is intended that the senior judge shall purchase a dagger twice the size of that purchased by the junior judge.

FROM THE PLAGUE COUNTRY

A Traveling Man Who Was Dangerously Near it.

Mr. Gus B. Brookfield, representing the Chrome Iron Works of San Francisco, arrived in the city yesterday from the south. Mr. Brookfield is a cousin of Mrs. Brodie, the wife of the governor, and she by the way, is the first person he has met whom he knew, within the last two months or since he left his home in Chicago early in November.

Mr. Brookfield has been making a tour of the country along the coast, where the plague was likely to appear. The vessel on which he came up the coast to Guaymas was quarantined for several days not only there but at every place it touched. It is the quarantine rather than the bubonic plague that is feared in southern Sonora.

The town of Guaymas is being cleaned as it never was before since it was built. The streets are swept every morning and everything that can be gathered up is taken to a hill above the town and burnt with chili and sulphur. The authorities are doing everything they can to convince the United States government that the plague can not make a landing in Sonora. Notwithstanding their efforts they are in daily fear that a quarantine will be established by this government.

Mr. Brookfield was a participant of this fear for as soon as he landed at Guaymas he set out for the border missing Hermosillo and all the other towns along the route. It is his belief that with the precautions which are being taken there is no danger of the plague reaching any of the Sonora towns either inland or along the coast.

This is his first trip in the west and particularly this was his first trip in Sonora. He has not suffered for want of novelty either in food or in manner of living. His business took him about the mining camps and the smaller towns of the sister republic and he has learned what it is to sleep in a heterogeneous mass of men, women, children, pigs and chickens, all gathered together in one small room. He has lived for a considerable part of his time on jerky which he said he could not chew without robbing the Chrome Iron Works of the time for which he is paid. Mr. Brookfield is a conscientious gentleman and therefore ate the jerky without chewing.

His journey from the time he left San Francisco was made up of a series of surprises but the greatest of all of them was inflicted upon him when he came to Phoenix. He said it seemed almost impossible that such a town could have been established in a country so near Mexico.

Mr. Brookfield called at the office of the sheriff to tell Sheriff Cook that he had lately seen a brother of his at San Fernando, Mexico.

Sent Free

To Men

Free Trial Package of this New Discovery Mailed to Every Man Sending Name and Address—Quickly Restores Strength and Vigor.

Free trial packages of a most remarkable remedy are being mailed to all who will write the State Medical Institute. They cured so many men

A. E. ROBINSON, M. D., C. M., MEDICAL DIRECTOR.

who had battled for years against the mental and physical suffering of lost manhood that the institute has decided to distribute free trial packages to all who write. It is a home treatment, and all men who suffer with any form of sexual weakness resulting from youthful folly, premature loss of strength and memory, weak back, varicocele, or emaciations of parts can now cure themselves at home.

The remedy has a peculiarly grateful effect of warmth, and seems to act directly to the desired location, giving strength and development just where it is needed. It cures all the ills and troubles that come from years of misuse of the natural functions, and has been an absolute success in all cases. A request to the State Medical Institute, 1132 Elektron Building, Ft. Wayne, Ind., stating that you desire one of their free trial packages, would be complied with promptly. The institute is desirous of reaching that great class of men who are unable to leave home to be treated, and the free samples will enable them to see how easy it is for them to be cured of sexual weakness when the proper remedies are employed. The institute makes no restrictions. Any man who writes will be sent a free sample, carefully sealed in a plain package so that its recipient need have no fear of embarrassment or publicity. Readers are requested to write without delay.

"Where were you going in such a hurry, Gadsby?"
"Anywhere, to get out of town till it blows over."

"Till what blows over?"
"Hasn't anybody told you? I got my Christmas things mixed, and sent to Aunt Rachel, who lives next door to us, a shaving set I had intended for my nephew."

"That was awkward, but you can explain it."

"No, I can't. Aunt Rachel has a great deal more beard than the nephew has."—Chicago Tribune.
